PERSONAL PROFILE

Full Stack Developer with experience in Ruby, Ruby on Rails, HTML, CSS, and JavaScript. Expertise in crafting user-friendly interfaces and seamless integrations. Key achievements include successfully delivering high quality projects within tight deadlines, developing a full range of capabilities using various technologies and fostering effective collaboration within teams. Seeking a Full Stack Developer role at a company where I can leverage my technical skills to support innovative initiatives.

TECHNICAL SKILLS

Ruby • **Ruby On Rails** • **HTML** • **CSS** • **JavaScript** • **Figma** • **Git** • **Github** • **Heroku** • **SQL**

PROJECTS

FootyHub

Led a collaborative effort with a team of 3 to create 'FootyHub', a football connectivity app. Completed within a 2-week timeframe, the project showcased technical proficiency and effective communication skills as demonstrated during a live presentation to an audience of 80+.

- Backend developed using Ruby on Rails for robust functionality
- Frontend crafted with JavaScript, HTML, and CSS for intuitive user experience
- Designed a user-friendly interface in Figma, prioritising accessibility and creativity
- Demonstrated strong full-stack skills through seamless integration
- Effective collaboration through daily stand-ups & regular communication
- Achieved project goals through dedicated teamwork
- Presented to 80+ audience, demonstrating effective communication skills

Apex Auto

Whether you're looking to rent a car or list your own for extra income, Apex Auto offers a seamless platform. Experience convenience and flexibility in car rental and earning opportunities, all in one place.

- Developed an Airbnb-inspired car listing and rental website in just 1 week
- Utilised Ruby, JavaScript, HTML, CSS, and Ruby on Rails
- Leveraged collaborative tools like GitHub and skills acquired from training at Le Wagon
- A team effort involving four members, demonstrating effective collaboration and rapid development
